Service Information Sheet

Performing Risk Assessments & Evaluations

Objective

Assessing work related risks and defining administrative measures.

Description

Safety, quality and environmental protection starts with familiarization with the clear and present dangers in these areas. A tool for this is the Risk Assessment and Evaluation, also called the RA&E. Aside from the fact that this RA&E has a legal basis, it is always wise to assess and reduce risks in a structured manner. As all work related risks are named, these should be evaluated and controlled. This is possible through classification of the risk by threat level and then developing a plan of action in which administrative control measures are formulated. Additionally, the severity of the threat, of course, gets first priority.

It may also be necessary to look at certain risks on a more detailed level (in depth research) in order to formulate a more specific approach. For this, you can consider Task Risk Assessments or risk identification studies such as HAZOP.

Approach

Should you choose Disc as your partner, you can be certain that we will select a consultant with care who has experience in the field and is familiar with your branch's line of work.

Additionally, not only does education level play a role, but certainly competencies, experience, and communication skills do as well.

Below are some of the services provided:

- Conducting general risk assessments within your company or project.
- Conducting risk assessments based on specific demands such as ISO, VCA, or HACCP.
- Conducting specific risk assessments, such as task or job risk assessments (TRA / JRA).
- Conducting risk identification studies such as HAZOP, HACCP, PHA, FMEA, and Hazids.
- Determining threat level and suggestions for adequately controlling the risks.
- Designing/developing a plan of action.
- Creating tools to be able to introduce improvements from the plan of action.
- Advise concerning implementation and securing the plan of action.

If desired, the set of services can be customized after consultation with the client.

Price Indication

We hire out our consultants to your organization based on hourly rates. For this service, these rates range anywhere between €70,- and €120,- per hour, during normal business hours.

This rate, however, does not include:

- VAT.
- Travel and lodging costs.
- Equipment costs.

For each request, a formal quote will be provided.
